Ershad Mirdamady

Security and Information Technology Senior Consultant
Tehran & Alborz , Islamic Republic of IRAN

Summary

With over 14 years of experience as a Security and Information Technology Senior Consultant, I help companies migrate from traditional IT infrastructure and data centers to the new technology of cloud and virtualization. I design, define, and create road maps for them to achieve their own private cloud and the services they need, such as IaaS, PaaS, SaaS, and XaaS. I also train their staff to navigate and manage the migrated systems.

Also as a CIO, I lead the IT Governance, IT Strategy, and development for applicant organization and companies, to ensure about alignment of IT policies, procedures and systems with the business goals, vision and expectations. I collaborate with stakeholders, end users and vendors to plan and implement IT and enterprise applications that support efficient and effective operations and customer satisfaction. I also supervise, develop, and hire a high-performing IT team that delivers reliable, accessible, and secure solutions.

Experiences

All applicant companies
